

## **Equity Analyst**

*JB Capital Markets, S.V., S.A.U. (Madrid)*

### **Profile:**

We are looking for graduates in Economics/Finance/Management, with 1-3 years of relevant work experience in equity research/financial markets, or in similar roles in investment banking or consultancy. Outstanding Spanish and English are a must, other languages are a plus. CFA and/or financial qualifications are highly valued.

Pay is competitive with Madrid-based finance graduates. Start date is immediate, although we could wait for the right candidate.

### **Main Responsibilities**

- To assist senior research analysts in their work and sector coverage
- To write daily comments for our Iberian Daily Research product
- To proactively participate in the Morning Meeting providing updated views on the daily newsflow related to the stocks under coverage
- To build in-depth financial models for the stocks under coverage and to write reports on the said companies with an investment opinion
- To actively market the investment ideas from the coverage with the firm's clients as well as with the sales force.
- To maintain a solid relationship with the companies under coverage

**Starting date:** Immediate

**Labor contract**

**To apply please send your CV and an introducing email explaining what makes you stand out versus other potential candidates to:**
